

Willapa Heritage Foundation Annual Community Artist Grant 2019

The Willapa Heritage Foundation's principal purposes are to provide services to local artists and support the arts in the Willapa Bay area, to promote diverse cultural and artistic enrichment programs and opportunities, and to coordinate the community-children and adults-participation as providers and recipients.

The Foundation will award artists working on their art in which to sell (not exclusively) or exhibit (not exclusively) in the community. The \$1,500 grant will be awarded to five artists annually who meet the criteria of the grant and are willing to complete the community service stipulation. The community service will contribute to the arts in the community through education or in supporting the Foundation's activities that create opportunities for the arts to be appreciated by the community.

For this grant art will not be limited to fine art. Any art is eligible to receive the grant such as but not limited to: performing art, sculpture, jewelry, music, photography, etc.
